Election/Restrictions

This Election/Restriction replaces the previous version to eliminate the E/S and clarify issues.

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-24, and 27, drawn to method.

Group II, claim(s) 25, 26, drawn to apparatus.

2. The inventions listed as Groups I-II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The claims are anticipated as evidenced by the four X and additional 3 Y references, and hence the inventions as claimed fail to define a contribution over the prior art. Electrospray of a liquid onto a supported substrate of any shape to form a functional coating of a nano thickness and apparatus for its use, as claimed, fails to define a contribution over the prior art, hence the claims are properly restricted.

3. A telephone call was not made to Eric Morehouse since this action is simply to reduce issues.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

Art Unit: 1792

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
